

Super Duty Telescoping Flagpole ½ Mast Options

Option 1

Option 2

Requires Purchase of ½ Mast Cable

Step 2
 Resecure the screw at top of pole back into the inner cylinder that holds the light and ball in place.
***** Very Important *****
 Let the outer ring rest atop the next section of the flagpole.

Step 2
 Wrap the bead retainer around the pole and secure it in the clip. Then at the snap hook from the top of 1st flag in the clip.

Step 3
 Raise the sections of your pole back up and you see the outer ring of the truck drops down to the top of 2nd section. Indicating 1/2 mast.

Step 3
 Raise the sections of the flagpole and flags are now flying at 1/2 mast.
