

Top Mounted 40 LED Solar Flagpole Light

Product Code: PF00118

40 LED Double Row Solar Flagpole Light: This powerful double row light designed to catch the flag at rest and in bloom.

- Li-ion battery is charged by a powerful solar panel in the day and will illuminate the flag at night with 40 High Power LED's.
- The battery is a dual cell Lithium Ion with built in smart sense technology. That means it will charge, dis-charge and maintain itself using the on-board computer. This smart light will detect night sky and come on at dark. In the morning the light will detect the light and turn the unit off, truly a set it and forget it item.
